

STATEMENT UNCLASSIFIED

I was P.E. on Spectre #07 and had just got airborne and got words from Blue Chip to escort Spectre 17. We got a heading from Lion Control on the way and I heard Spectre #17 call Lion and Blue Chip. "We took a hit in the Lt. Wing, lost utility hyd. sys. and have fuel in cargo compound." At this time Lion Control lost radio and radar with Spectre#17. When we got to the crash we got a beeper on two crew members, they were in good shape. We flew cover and Jolly Green picked up the two crew members. We stayed above the crash until fuel came to the R.T.B. No other beepers were heard.
